Huntington. of Greenville, for bond subscriptions from the county of Washington and the town of Greenville, are published in this issue of the Times, as legally required. We invite a careful reading of them by the taxpayers and voters of the county and town. The terms of the agreement, now submitted to the people for ratification or pjection, stated in sub-tance, are that this subscription of \$100,000 of county and town bonds cannot be issued and delivered until \$500,000 of railroad work, over 40 miles, are built and ready for operation through Washington county. While this enterprise is not at present connected with that of the Hilnols Central system, the defined and arowed intention of its promoters is to cannect with the branch of that road now being constructed from Jackson to Yasoe City, and to secure western connection with a road from Le and, opposite Greenville, to Bowen Station. The plan is feasible, and manifastly govers and comprises a good railroad route; and when the Washington county southern line is reached—whom the conditions im one by Washington county and Greenville are complied with—its full accomplishment will necessarily follow. Bailroad Chesapes ke Ohio and Southwestern Railroad long clear Bacon fir 10.85c; sho As already britily announced, the Supreme Court of Georgia on Wednesday rendered a decision in the case of the Georgia ratiroad against the Bailroad Commission—a suit of deep interest to the citizens of Georgia. The decision sustains the commission. The history of the case, briefly summed up it as follow: Last spring a bill was flies by the Georgia Bailroad and Banking Company and William M. Wadley, as lessee, praying the chancellor to enjoin the ratiroad commissioners from calorcing certain rates of freight as against the Georgia ratiroad, upon the ground in chief that the charter of the Georgia Railroad Company authorized it to charge certain other rates, and that it had a constitutional right to do so; that the Legislature could not interfere to take those rights away. Its charter provided that it might charge at a rate not exceeding 50 cents per 100 pounds per 100 miles on freight, and 5 cents per mile passenger tariff. The commissioners' rates were, of course, lower. The latter was heard by Judge Sim ones, in Macon, and, after a legal fight of two or three days, resulted in a refusal of the application for an injunction. The case, was brought to the Supreme Court by counsel for the road, and the Court rendered its decision affirming the judgment of the court below. The decision was practically unanimous, Judge Hall stating that, whill—he differed from his associates in the matter of the reasoning, he did not differ with them so far as the law in the case was concerned.
